Global

The *Adaptability* system lives up to its name. Whether configured as multi-user workstations or for private offices, it encompasses hundreds of components—from adjustable corner desks and islands to a bay of storage modules—on 20 laminate options. 800-235-2908; globalmainoffice.com, circle 563

Farrago Design

The *Tivoli* stool and end table offers a fresh interpretation of inlay. Its damask pattern is hand-cut from camel bone and set in a water-based resin ground. Customize the pattern, size, and color, or choose a console or dining table version. 212-423-7391; farragodesign.com, circle 562

Oksana Ulisko

The *Ursa* coffee table might look delicate, as if it's floating or suspended. But don't let its appearance fool you: The oak top is securely flush mounted on pin-sheathed ribbon legs of brushed stainless steel. Finish the square top in black or white stain. 416-629-2932; oksanaulisko.com, circle 559

Dessin Fournir

The *Filius* garden table revives the tradition of French wrought-iron furniture. Admire its hand-forged iron legs, stretchers, and crescent supports through its 1/2-inch-thick glass top. Available in custom sizes and finishes. 785-434-2777; dessinfournir.com, circle 560

National Office Furniture

Maximize your flexibility with the *Optimal* training table. Set on casters, its clean design offers easy folding, nesting, and mobility with an array of wood, laminate, and thermofoil film. Choose from two depths and three widths, and accessorize with glass, centers and acrylic mobility panels. 800-482-2717; nationaloffice.com, circle 561
